Thank you for your interest in a *KHW* logo! You've come to the right place. All you need to know about the process is below:

PRE-DESIGN

Anyone can slap a "nice" font on an image and call it a logo. Not everyone understands the importance of first acquainting with your brand and your market. Your logo is part of your wider brand message, so *KHW* takes the time to appreciate the context and application of your future logo, even *before* pencil hits paper.

0. DESIGN BRIEF

Completed via an online form or call, this is where you tell us more about the nature of your business or organisation, and what your logo needs to represent/convey.

1. MARKET RESEARCH

KHW conducts research on competitors' and similar entities' logos - and marketing trends in the same/similar business/field - to understand what will set you apart.

DRAFTING

2. CONCEPT & SKETCHING

KHW creates a Sketch Board of sketched ideas and concepts based on the Design Brief and Research.

3 DIGITAL TRANSFER

KHW then converts the sketches into digital vectors.

4 & 5. SAMPLES PRESENTATION & SELECTION

KHW presents two or three (2-3) black and white samples for your feedback, in addition to the original Sketch Board. You will then select one sample to proceed to editing, or request new samples from the Sketch Board.

EDITING / REVISIONS

6. TYPOGRAPHY

To avoid copyright infringement issues where fonts are concerned, *KHW* will either purchase a premium font with commercial licensing, create a font from scratch, or modify an existing font.

7. EDITING & DETAILING

KHW makes the desired changes and refines logo shapes, layout, spacing etc. to your liking.

8. COLOURING

KHW adds appropriate colour(s) to the final design, and makes final changes as desired.

FINAL

9. MOCKUPS

KHW prepares displays of your new logo on different media as appropriate.

10. INTELLECTUAL PROPERTY

Upon payment in full, the logo becomes your property, so you may trademark as desired.
